

Our ambition

We want to be the leading organisation for environmental behaviour change in Ireland.

Together with people in communities, schools and businesses all over Ireland, we are growing a movement for change: A community of people who care deeply, act wisely, and live gently with the Earth.

Communities

We support community groups to realise their vision, by building knowledge and skills for sustainability

Schools

We support students, teachers and school communities through workshops, teacher training and school action plans

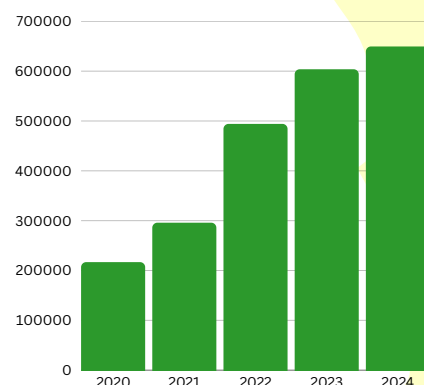

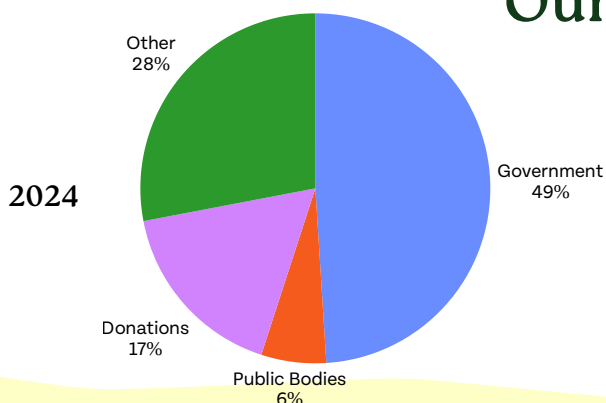

Businesses

We partner with businesses on employee engagement programmes, workshops and team building opportunities

Our dedicated online Climate Competition platform provides a unique tool for organisations of any size to engage staff, volunteers and leaders with practical climate friendly strategies.

Our Income

Our Board of Directors

Aoife Connaughton, Deloitte
Amine El Alami, Meta
Jack Lee, MUFG Investor Services
