

Corporate Patron Programme

Global Action Plan Making the Space for Change

Our mission is to support people to take effective action towards a more sustainable society.

Global Action Plan offers practical yet creative solutions that inspire and enable people to act. We work with people at all levels of society, particularly those often left behind. And all our programmes are implemented in partnership with others.

Our success depends on the support and active involvement by people from all walks of life.

By Becoming A Corporate Patron You Are:

Joining a nationwide alliance of people and organisations that believe in the potential of ordinary people

Leading the way, by highlighting the importance of behaviour change as part of the solution to global crises

Supporting effective programmes that have a tangible impact on the lives of children and adults in under-served communities

Helping to empower people, enabling local climate solutions all over Ireland.

Making practical connections between your corporate values and social responsibility goals

Inspiring others, by showing your commitment to creative Sustainability action

GAP's corporate Patrons help our charity in many ways, ranging from financial support through to joint public relations, networking and awareness raising, to help increase the reach and impact of our organisation.

Our Patrons are committed to driving effective climate and environmental action, and want to ensure that every child and community in Ireland has access to the knowledge and skills needed for a just transition towards sustainability
