Social Inclusion and Environmental Education through Community Gardens

Changing People Changing the Planet

GLOBAL ACTION PLAN

At Global Action Plan we believe that **everyone can make a difference.**

The choices we make in our daily lives affect other people, and affect our planet.

That is why we help people, young and old, to **discover the power of their decisions**, and their power to effect positive change.

Environmental solutions require informed and empowered citizens.

GLOBAL ACTION PLAN

In our **two GLAS community gardens in Dublin**
(and through our Outdoor Education programmes)

we provide opportunities to members of the local community

to meet and work together, irrespective of backgrounds, abilities or skills, and to experience first-hand the principles and practices of sustainable lifestyles.

Our programme is a unique combination of social inclusion and environmental education.

GLOBAL
ACTION
PLAN

GAP's community gardens provide spaces where people get to meet and share, discover new skills and reconnect with nature.

The GLAS community gardens are places for individuals, community groups and schools to come to learn about gardening and sustainability, or to simply enjoy being out in the Irish weather, growing healthy food.

Our qualified gardeners ensure that our gardens are welcoming, safe spaces to learn, explore and discover.
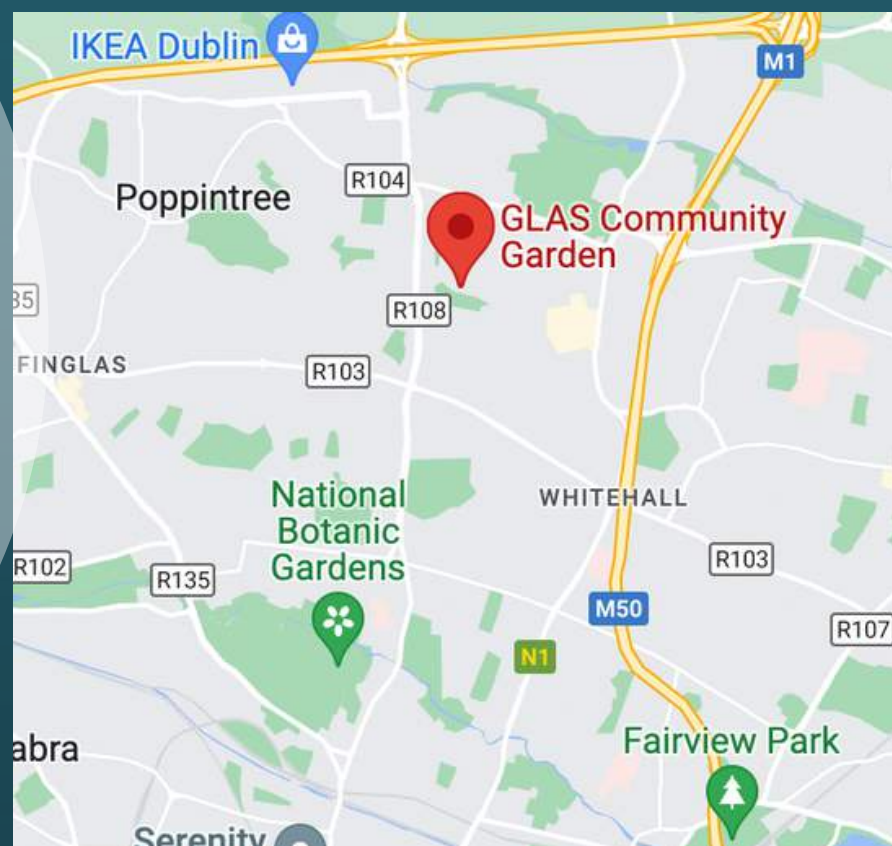

GLOBAL ACTION PLAN

GLAS Ballymun

Shangan Road, Ballymun
https://goo.gl/maps/EjAvVYrwfLTDLMWr5
