

# JUST! NEWSLETTER

VERY FIRST JUST ACTION PROJECT NEWSLETTER N.0

## JUST ACTION PROJECT

*by all partners*

Welcome to the first newsletter of the JUST ACTION project (2021-1-IE01-KA220-SCH-000031615 ). Let's find out what is the **JUST ACTION - Teachers and students towards a sustainable transition** about. The project, co-funded by the Erasmus+ programme, aims to empower teachers in primary and secondary / high schools to engage their learners critically in the theme of climate action through a Global Citizenship Education (GCE) lens and to support learners in taking relevant, meaningful action to the climate issues they encounter. The project stems from a growing awareness of the globalised and interconnected nature of climate action and the need for systemic change starting with young people, supporting the UN Sustainable Development Goals and Climate Action. The project has a duration of 36 months (from 01/11/2021 to 01/11/2024).

**"Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has."**

**Margaret Mead**

## GOALS

*by all partners*

- to provide appropriate educational resources for primary and secondary teachers and their students
- to provide a training programme for teachers at both levels, supported by an online Resource and Learning Platform for teacher and student access
- to make learners feel empowered to participate as an active global citizen and take action on climate and sustainability issues and challenges that matter to them most
- to create greater opportunities for school to school collaboration via eTwinning
- to grow, scale and sustain the programme through the regional education systems in each country, thus increasing access of the programme to schools, teachers and learners nationally and transnationally
- to build capacity of the programme partners to manage the design life cycle of educational programmes

## ACTIVITIES

*by all partners*

**Secondary School Action on  
Global Citizenship  
Programme**

**Primary School Action on  
Global Citizenship  
Programme**

**Action on Global Citizenship  
Teacher Training Programme**

**Action on Global Citizenship  
Resource and Learning  
Online Platform**

# PARTNERS

Global Action Plan (GAP) Ireland is a different type of environmental charity. Their mission is to support schools, communities and business to take practical action to live as sustainably as possible. The environmental education programmes help support people with education and creative tools to respect and protect their environment.

**GLOBAL ACTION PLAN**

GAP Spain forms part of GAP International, a network of NGOs active in the field of “education for sustainable development” and related programmes for sustainable behaviour change. GAP is a network of organisations working toward a common goal: empowering people to live and work increasingly sustainably.

**Framtiden i våre hender**

Framtiden i våre hender, meaning "future in our hands", is Norway’s largest environmental organisation, and works for a fair distribution of the world’s resources. Framtiden works to assist government and businesses in facilitating green and ethical choices.

InEuropa is an Italian organization that aims to informing and sensitising public and private bodies to policies and programmes of the European Union. The InEuropa team consists of facilitators of change, who aim to initiate and aid a process of growth and change that may lead to the development of new initiatives.
